

CURRICULUM VITAE

Name: ADURAMIGBA-MODUPE, Adefoyeke Olufunmilayo
Address: Department of Crop Protection and Environmental Biology, Faculty of Agriculture, University of Ibadan, Nigeria
Present Post: Room A307, 3rd Floor, Agric. Biology Building,
Present Post: Reader
Cell No: +234803 577 7810.
E-mail: fyduramigba@yahoo.com
ORCID: <https://orcid.org/0000-0002-8998-627X>
Google Scholar link: <https://scholar.google.com/citations?user=AvsOEUAAA AJ&hl=en>
Research gate link: <https://www.researchgate.net/profile/Adefoyeke-Aduramigba-Modupe>

Education:

1. PhD. Plant Pathology, University of Ibadan, Ibadan, Nigeria, (2005).
2. MSc. Microbiology, University of Ibadan, Ibadan, Nigeria, (1997).
3. BSc. Microbiology, University of Ibadan, Ibadan, Nigeria, (1994).

Professional career objective:

My research focus on the development of integrated plant health management techniques for increased crop production and food security.

Current Research Projects

1. Efficacy of biochar in the management of fungal diseases of food crops for sustainable crop production
2. Efficacy of plant extracts in the management of fungal diseases of fruits and vegetables
3. Bioefficacy of Spent Mushroom Compost (SMC) in the management of vascular wilt diseases of tomato (*Solanum lycopersicon*. L.).
4. Occurrence and aflatoxin contamination in stored products in South Western Nigeria

Selected Publications

1. **Aduramigba-Modupe, A. O.**, Alawiye, T. T. and Adedire, O. M. 2021. Management of Fusarium wilt disease of tomato (*Solanum lycopersicum* L.) using selected plant extracts. *International Journal of Sustainable Agricultural Research*. Vol. 8(3), 114-121.
