

PROMOTION EXERCISE 2011

CURRICULUM VITAE

- I (a) Name:** Mukaila Gbenga **Olujide**
- (b) **Date of Birth:** 21 January, 1957
- (c) **Department:** Agricultural Extension and Rural Development,
University of Ibadan, Ibadan, Nigeria.
- (d) **Faculty:** Agriculture and Forestry.
- II (a) First Academic Appointment:** Assistant Lecturer 1, March, 1999
- (b) **Present post (with date):** Reader 1 October, 2008
- (c) **Date of last Promotion:** 1 October, 2008
- (d) **Date last considered (in cases where promotion was not through):** Nil
- III University Education (with dates)**
- (a) Department of Vocational Agricultural Education,
University of Nigeria, Nsukka (1987-1991)
- (b) Department of Agricultural Extension Services,
University of Ibadan, Ibadan. (1992-1994)
- (c) Department of Agricultural Extension and Rural Development,
University of Ibadan, Ibadan. (1995-1999)
- IV Academic Qualification (with dates)**
- (a) B. Sc (Vocational Agric. Education), University of Nigeria, Nsukka (1991)
- (b) M. Sc. (Agricultural Extension), University of Ibadan (1994)
- (c) Ph.D (Agricultural Extension with Specialization in Rural Sociology)
University of Ibadan. (1999)
- V Professional Qualifications and Diploma (with dates):**
- (a) Nigeria Certificate of Education (N.C.E) (Agric Education) Oto-Ijanikin (1984).
- VI Scholarships, Fellowship and Prizes (with dates):** Nil
- VII Honours, Distinctions and Memberships of Learned Societies;**
- (a) Member, Agricultural Extension Society of Nigeria (AESON)
- (b) Member, Nigeria Rural Sociological Association.
- (c) Member, Nigeria Environmental Study/Action Team
- (d) Member, Science Teachers Association of Nigeria.

VIII. Details of Teaching Experience at University Level.

(a) Undergraduate Courses:

Course No.	Course Title	Units	Session
(i) HES 210	Introduction to Home Economics (Co-taught)	2	1998 - 2001
(ii) AES 310	Agricultural Extension Education (Co-taught)	2	1998 to date
(iii) AED 313	Educational Psychology (Co-taught)	3	1998 to date
(iv) AES 410	Community Agricultural Extension (Co-taught)	2	1998 to 2005
(v) RSD 513	Rural Social Problems and Public Policy (Co-taught)	2	1998 to date
(vi) RSS 516	Theories of Social Change (Co-taught)	2	2004 to 2005
(vii) RSD 518	Community Organisation and Leadership (Co-taught)	2	2010 to date
(viii) AED 519	Teaching Vocational Agriculture in Schools (Co-taught)	2	2010 to date

(b) Postgraduate Courses

Course No.	Course Title	Units	Session
(i) AES 714	Psychology for Extension Personnel (Co-taught)	2	2003 to date
(ii) AES 715	Advanced Rural Sociology (Co-taught)	2	1998-2002
(iii) AED743	Local Leadership Development and Use of Local Group (Co-taught)	2	2007 to date

(c) Supervision of Students' Research Completed as at June 2011

	Completed	In progress
B.Sc	26	-
M.Sc	28	-
M.Phil	-	3
Ph.D	-	5

(D) Other Departmental/Faculty Responsibilities:

- i. Member, Departmental Undergraduate Examinations Committee
- ii. Member, Registration Course Committee (Postgraduate)
- iii. Marketing Manager, Practical Year Training Programme (PYTP) 2001-2002.
- iv. Assistant Warden, New Post Graduate Hall (Feb 2002- Feb 2006)
- v. Congregation Member of Senate (2001- to date).
- vi. Chairman, Physical Development Committee (1st August 2006-2009)

IX RESEARCH

(a) Completed

- i. Environmental Impact Assessment (EIA) of Logging in Natural and Plantation Forests of Ogun and Ondo Forest Reserves. This study investigated the social impact of logging in natural and plantation forests of Ogun and Ondo Forest Reserves. The findings showed that there is a significant variation between the enclave villages in terms of their historical backgrounds, population size, ethnic composition, level of infrastructural development and opportunities for alternative income-generating activities.
- ii. Assessment of Roles of Community Women and Development (COWAD) in Environmental Protection in Ibadan North Local Government Area of Oyo State. This study assessed the roles of COWAD in environmental protection in Ibadan North Local Governmental Area of Oyo State. The findings revealed that COWAD environmental protection activities include tree planting, public awareness on sanitation and health programmes for the food processors.
- iii. Activities of Selected Non-Governmental Organisations (NGOs) in Rural Development in South West Nigeria. This study focused on the comparison of the objectives and achievements of selected NGOs. The perceived benefits derived from NGOs' activities were determined and the constraints faced by the beneficiaries of NGOs' activities were investigated. The findings showed that the selected NGOs often assist people in rural development programmes, particularly through mobilization and enhancement of income generation capacity in line with their set objectives.
- iv. The Relevance of Indigenous Knowledge in Farmers Environmental Education in Iseyin Local Government Area of Oyo State. This study determined the relevance of indigenous knowledge on farmer's environmental education in Iseyin Local Government Area of Oyo state.
- v. Micro-Watershed and Environmental Management Programme. Social Assessment for Adamawa and Benue State. World Bank/IBRD. The study focused on responsibility for supervision of the data collection using FGDs, IDs and the use of participatory tools. We looked at agriculture, identified social characteristics especially for community action and cohesion.
- vi. Fadama II Preparation Studies Social Assessment for the Southern States of Nigeria. The study established an appropriate framework for stockholders participation in project selection, design, implementation and management in the expanded Fadama II. Investigated social issue and population characteristics, determined sustainability and economic viability of current income generating activities, studied attitude of population to the concept of enhancing Fadama farming.
- vii. Attitude of Youth towards Rural Development Projects in Lagos State, Nigeria. The study was carried out to investigate the attitude of youth towards rural development project in Lagos state, Nigeria. Variables considered include personal characteristics of the youth, role played by youth and the attitude of youth towards rural development projects. The results of the study showed that majority of the respondents belonged to youth organizations and participated in rural development projects. The favourable attitude of youth in the study area towards rural development programmes signifies a better approach to development of the area.

- viii Farmers Attitude to Nigerian Guinea Worm Eradication Health Education Programmes in Orire Local Government Area of Oyo State, Nigeria. This study focused on the farmer's attitude towards Nigeria Guinea Worm Eradication Health Education Programme (NIGEP) in Orire Local Government Area of Oyo State, Nigeria. Findings revealed that majority of the farmers perceived that guinea worm disease had effect on the level of agricultural production .Also, majority of the farmers had positive attitude towards NIGEP. Gender, age, educational level, marital status and religion did not significantly influence farmer's attitude towards NIGEPs health eradication programmes.
- ix National Fadama 111 Project: Conduct Aquaculture Potential and Constraints Study in Seven Selected States of Nigeria. The study was conducted in seven selected states in Nigeria. The result of the study showed that there is a high potential for aquaculture in Nigeria. The constraints facing aquaculture include non-availability of fund to procure necessary inputs, fish seed, feed and capacity building. Integrating fish culture with poultry, bananas, vegetables or rice was shown to have the potential of further increasing the income of the farmers. Also, there is a low proportion of participating youths which should be corrected for sustainability.
- x Comparative Analysis of Agricultural Productivity of rural Women in High and Low HIV/AIDS Prevalent Areas of Anambra State, Nigeria. This research was initiated to compare agricultural productivity of rural women .The findings of the study agricultural productivity was found to be low in both high and low HIV/AIDSprevalent areas of Anambra State.
- xi Assessment of Service Provided By Village Alive Women Association (VAWA to Rural Women in Ifelodun Local Government Area of Kwara State.
The research was initiated to study the analysis of services provided by Village Alive Women Association (VAWA) for the rural women in Ifelodun Local Government Area of Kwara State, Nigeria.
The findings showed that the respondents have a favourable attitude toward participation, constraints and benefit derived in VAWA services and they are more willing to continue with the activities of VAWA.
In view of the above, the study recommended that money and other necessary technologies should be made available to the hardworking rural women of Nigeria by different NGOs and Voluntary organizations so that they can increase their productivity.
- xii. Social Impact Assessment of Oil Exploration on Rural Livelihood in Imo State Nigeria. This study assessed the perceived social impact of oil exploration on rural livelihood in Imo State. .
Results of data collected on respondents' level of awareness on oil exploration activities indicated that most of the respondents lack awareness of the destructive exploration activities. The result showed that the respondents perceived that exploration activities caused pollution (Negative effect). The study further revealed that conflict exists between community and their leaders and between exploration workers and the entire community over compensation given by the exploration companies.
The oil exploration had more negative impact on farming than none farming activities. And it was recommended that the exploration companies should be made to comply with government laws and regulations made to protect the environment of the host communities from pollution.

(b) In Progress

NGOs - Assisted Women Micro Enterprise in Nigeria: A Conceptual Analysis of Management and Sustainability Factors

- i. The aim of this study is to provide an insight into the emergence of micro entrepreneur assisted by micro enterprise development focused NGOs vis-à-vis the growth, management and sustainability/factors over a period of five years. Using an updated list of NGOs (1995), two NGOs with field operations across south west and South-South geo political zones will be selected. Twenty micro enterprises assisted by the selected 2 NGOs will be selected in 2 States in each geopolitical zones of the Nigeria. Questionnaire will be used for data collection on interventions provided to support the start up, growth, and development as well as sustainability of the enterprises since inception.

- ii. Strengthening Local Organisations for Conservation Agriculture

This research work will examine the activities of local organizations involved in conservation agriculture in Nigeria. Other variables to be considered in the study include adaptable technologies for conservation farming, innovation systems for community development.

The study will identify some key success factors based on practical experiences and lessons learnt during the implementation and impact assessment of agricultural projects.

(c) **Dissertation and Thesis**

- i. Appraisal of Community Women and Development (COWAD) Programme in Ona Ara Local Government Area of Oyo State. M.Sc. Project, Department of Agricultural Extension Services, University of Ibadan, Ibadan, Nigeria, April 1994. 62 pp.
- ii. Activities of Selected Non-governmental Organisations (NGOs) in Rural Development in South West Nigeria. Ph.D Thesis, Department of Agricultural Extension and Rural Development, University of Ibadan, Nigeria.

(j) RESEARCH FOCUS

My area of specialization is Rural Sociology. My research interest concentrated on Non-governmental organizations in rural development, Community development Associations, Women empowerment, Livelihood activities of women and rural dwellers, and other related issues such as HIV/AIDS.

Non Governmental Organizations' (NGOs) and Community Development Associations (CDAs).

My publications 12,15,16,20,22,23,30,36,38,41,47 and 58 addressed issues on NGOs and CDAs. The findings showed that Community Women and Development (COWAD) contributed to women development in the area of improved agricultural machineries, income generating activities, skill development, adult literacy and credit programmes to rural women were assessed in Ogun state. COWAD credit programmes to rural women was assessed in Ogun and Ondo States.

NGOs are able to mobilize and reach the rural people in their programme.

Further studies on benefit derived by participants from Justice Development and Peace Commission (JDPC) programmes revealed that the participants benefited from the JDPC programmes. Benefits include ability to use animal traction for cultivations, leadership training, extension services and land management practices

The impact of NGOs interactions showed that there was improvement in the living standard, income generation, access to infrastructure and change in literacy levels.

My studies concluded that Community Development Association had contributed to Self-help Projects in South West and South East Nigeria.

Women Empowerment and Livelihood Activities of Women

My publications numbers 27,34,35,37 and 59 addressed issues on women empowerment through literacy education. It was shown that adult and non-formal education and counseling programmes were effective tools for empowerment and self actualization of women.

The study of the livelihood activities of women in Oyo West Local Government of Oyo State, Irewole Local Government Area of Osun State as well as Obolo Local Government of Akwa Ibom State showed that livelihood activities have improved their standard of living in Oyo, Osun and Akwa Ibom States of Nigeria.

Other related issues studied include concept of cooperative occupational education and its needs in Nigeria (paper 43). This revealed that Nigerian youths can be prepared for entry and advancement in agriculture and related occupation thereby reducing dropouts, unemployment rate and making the Nigerian youth marketable in the world of work.

Paper 32 revealed that blind trainees could effectively undertake farming activities despite their disabilities.
