

Current Research

Research

a) Completed

i) Genetic and Nutrient Variability of *Parachanna obscura* of Fresh and Brackish Water environments in Nigeria.

b) In progress

i) Assessment of Aquaculture Performance of Inbred and Crosses of Pectoral Spine Variants of *Clarias gariepinus* (Burchell, 1822)

ii) Genetic Diversity of Freshwater Prawn population in Asejire Lake

iii) Genetic Diversity of Freshwater Prawn population in Lafenwa River

c) Dissertation and Thesis

(i) Assessment of genetic structure of *Clarias gariepinus*, Burchell, 1822 population in Asejire Lake. Ph.D. Thesis, University of Ibadan 2014

(ii) Comparative Study of Genetically improved (Triploid) *Clarias gariepinus* (Burchell 1822) produced by cold shock at two different temperatures. M. Sc. Dissertation, University of Ibadan 2001

(iii) Epizootiology of some Fish Farms in Oluyole Local Government, Oyo State. B. Sc. Dissertation, University of Ibadan 1997.
